In live TV mode on the Spectrum app using the **Xumo Large Button Voice Remote**, the **More button** (marked with three dots or ellipses) opens the Quick Access Menu for accessibility and shortcut settings. Spectrum +1

The "More" Button Function in Live Mode

- **Quick Access Menu:** Pressing the More button opens an on-screen overlay allowing you to quickly toggle **Closed Captions (subtitles)** or **Voice Guidance (screen reader)** without navigating deep into the main settings. Spectrum.net

Other Buttons on the Xumo Large Button Remote in Live Mode

- **Power Button (Top Right):** Turns your TV and Xumo Stream Box on or off. Spectrum
- **Voice / Microphone Button:** Press and hold (or tap for tap-to-talk) to speak voice commands (e.g., *"Open Spectrum"* or *"Play HGTV"*), letting you jump straight to live channels or apps. YouTube · Put to the Test +1
- **Volume Rocker (Left side, top):** Adjusts the TV volume up or down. YouTube · Put to the Test +1
- **Channel Rocker (Right side, top):** Changes channels up or down while watching live TV. Reddit · r/Spectrum +1
- **Mute Button (Round, upper middle):** Mutes or unmutes the audio. Spectrum
- **Info Button (Round with indent, upper middle):** Press up or press the info button to view program details, subtitles, closed captioning, or restart options for the current live show. Spectrum +1
- **Directional Pad (Diamond shape, center):**
  - **Up:** Displays program info, options, or audio settings.
  - **Down:** Brings up your recently watched channels list.
  - **Left / Right:** Navigates menus, opens the mini-guide for channel surfing, or seeks/rewinds when live TV is paused.
  - **Center / OK:** Selects highlighted items or pauses live TV (allowing you to rewind and fast-forward). Spectrum +3
- **Back Button:** Exits current menus or returns from the live screen to the main app menu. YouTube · Spectrum
- **Home Button:** Returns you directly to the main Xumo home screen. YouTube · Put to the Test

- **Number Pad (0–9):** Allows you to directly punch in a specific channel number to tune live TV. YouTube · Put to the Test +1

While watching live TV on the Spectrum TV app using the **Xumo Large Button Voice Remote**, the **Back** button and the **More** button (represented by three dots or an oval menu button) serve distinct functions: Spectrum +2

- **The Back Button in Live Mode:** Pressing the **Back** button while watching live TV exits or steps back from the current view—often opening or returning you to the main Spectrum TV menu (including the full-screen guide, library, and on-demand options) or taking you back to the previous screen you were on. Spectrum +1
- **The More Button (Three Dots / Oval Menu Button):** Tapping the **More** button opens the quick access menu. In live TV or app mode, this lets you toggle and manage accessibility features directly, such as turning **Closed Captions** (subtitles) or **Voice Guidance** on or off, and adjusting secondary audio/SAP settings. Spectrum.net +1

When you are inside the **Spectrum** program guide using the **Xumo Large Button Remote**, each button performs a specific action to help you browse, select, and filter live TV or on-demand content:

Core Navigation & Selection

- **Directional Pad (D-Pad / Up, Down, Left, Right Arrows):** Moves your highlight box across channel rows, time slots, and program listings in the grid. Spectrum
- **OK / Select Button (Center of D-Pad):**
  - Selects and tunes to the currently highlighted program or channel.
  - *Tip:* **Hold down OK** for about one second when a row is active to open the **Sort/Filter overlay menu** (letting you sort channels by name or number). YouTube · Put to the Test +1
- **Back Button:** Exits the program guide and returns you to full-screen live TV or the previous screen. Spectrum.net
- **Home Button:** Exits the guide and the Spectrum TV App entirely, bringing you back to the main Xumo home screen. YouTube · Put to the Test +1

Channel & Volume Controls

- **Channel Up / Channel Down (`CH +` / `CH -`):** Pages up or down through the channel list in the guide in larger increments.
- **Volume Up / Volume Down (`VOL +` / `VOL -`):** Adjusts your TV or sound system volume while staying inside the guide interface.
- **Mute Button:** Silences or restores the audio.
- **Numeric Keypad (`0-9`):** Lets you type in a specific channel number directly to jump straight to it within the guide. Reddit · r/Spectrum +3

Voice, Shortcuts, & Utility

- **Voice Control Button (Microphone Icon):** Press and hold (or use tap-to-talk) to speak a command like *"Go to ESPN"* or *"Show me comedies"* to navigate or search voice-style while in the interface. Xumo +2
- **Quick Access / Settings Button:** Opens accessibility or settings options (such as closed captions, voice guidance, or text magnification). Spectrum.net +1
- **Add (`+`) Button:** Saves the highlighted show or movie to **"My List"** if applicable. Spectrum.net +1

On the **Xumo Large Button Voice Remote** used with the Spectrum TV app in live mode, the **Info button** is a round button located in the top section of the remote, directly below the round Mute button (and just above the directional navigation pad). Spectrum

Using the Info Button and Recording in Live Mode

- **Open Program Info:** While watching live TV, pressing the round **info button** (or pressing **UP** on the directional pad) opens the program information overlay or quick details page for the current show or movie. Spectrum +1
- **Start a Recording:** From that program information view or overlay, select **Record** to save the single episode or movie to your Spectrum Cloud DVR. YouTube · Spectrum +1
- **Record a Series:** If the program is a TV series, choosing **Record** inside the info/details menu gives you the option to select either **Record Episode** or **Record Series**. Spectrum +1
- **Alternative Shortcut:** You can also press **UP** on the remote's directional pad while watching live TV and select the **Record** icon directly, or navigate to the Spectrum TV App guide, highlight a program, and press the record or select options. YouTube · Spectrum +1

In **Spectrum live mode** on the **Xumo Stream Box**, pressing the Back button or using related navigation controls works as follows:

- **Opening the Guide / Menu:** Pressing the **Back** button while watching live TV opens the main menu or takes you to the Spectrum TV guide. Spectrum +1
- **No Direct Record Button on Some Remotes:** The Xumo / Large Button remote does not always have a traditional standalone red record button; instead, pressing **Up** on the navigation pad while watching live TV brings up program info and options like recording or subtitles. YouTube · Put to the Test +2
- **Recording a Show:** To record a live program, press **Up** on the directional pad while watching the channel, select the **Record** option on the screen, and press **OK** (or navigate to the Guide, select the show, and choose record/series options). YouTube · Spectrum +1
- **Previous Channel / Back Function:** If you want to jump back to a recently watched channel, press **Down** on the directional pad to bring up recently watched channels rather than expecting a single "last channel" recall button.

The **ellipsis button (the "More" button with three dots)** on the Xumo Large Button remote opens the quick-access accessibility and context menu. Spectrum +1

What the Ellipsis ("More") Button Does in Spectrum Live Mode with Recording:

- **Quick Access Menu:** Tapping the ellipsis button opens a quick overlay menu where you can toggle **Closed Captions** (subtitles) or **Voice Guidance** (screen read-out). Spectrum.net
- **Context-Sensitive Options:** Depending on whether you are viewing a live program, looking at the guide, or navigating the Spectrum app, pressing the More button displays additional options or program descriptions for what is currently on screen. Xu... +1

How to Record Live TV on the Xumo Stream Box:

The ellipsis button itself is *not* used to initiate a cloud DVR recording. Instead, use these steps while watching live TV on the Spectrum app:

- **Record Single Episode/Movie:** While watching live TV, press **UP** on your remote's navigation pad and select **Record**.
- **Record a Series or View Info:** While watching live TV, press **UP** on the navigation pad and select **Get More Info**, then choose **Record** (which will give you options to record just that episode or set up a series recording).
- **From the Guide:** Highlight an upcoming program in the Spectrum TV Guide, press **Select** (OK), go to the details page, and choose **Record.** Spectrum +2
